## 18.103 Fall 2013

## Problem Set 1

Notation. AG §1.1 refers to Measure and Probability by Adams and Guillemin, Section 1.1.

AG §1.1, pp 11–14: 1, 4, 7, 10, 12, 18, 19, 20\*

 $20^\ast$  means do 20, but for non-strict inequalities, namely,

$$\mu_L(\{\omega \in I : f(\omega) \ge \alpha)\}) \le \frac{1}{\alpha} \int_0^1 f \, dx$$

AG §1.3, pp 39–42: 4, 5, 7.

18.103 Fourier Analysis Fall 2013
